**RE: SUBMISSION FOR KENYA REVENUE MULTI-VENDOR USER OWNED ESEALS
FRAMEWORK QUALIFICATION OF VENDORS FOR SUPPLY, OPERATION, MAINTENANCE
AND MANAGED SERVICES OF ELECTRONIC SEALS**

Dear Sir,

We hereby submit our application for prequalification as a Service Provider under the Kenya Revenue Authority (KRA) Multi-Vendor User-Owned Electronic Seals Framework for the Regional Electronic Cargo Tracking System (EAC RECTS).

We confirm that we have carefully reviewed the tender requirements and fully understand the technical, operational, and commercial obligations outlined therein. In response, we have partnered with BSMART Technology Limited, a proven and established provider of electronic cargo tracking solutions with an existing operational footprint across the East African Community.

Through this partnership, we are confident in our ability to deliver a fully compliant, scalable, and reliable solution that meets all KRA requirements, including but not limited to: Full integration with the EAC RECTS platform Nationwide and regional operational coverage exceeding the required thresholds.

Provision of electronic seals and electronic fuel seals meeting all technical specifications 24/7 operational capability with rapid incident response Robust logistics, maintenance, and lifecycle management systems. A sustainable self-financing business model with no financial obligation to KRA.

Union International will assume full responsibility for commercial operations, customer onboarding, regulatory compliance, and service delivery oversight, while leveraging BSMART's technical expertise, infrastructure, and regional logistics network to ensure seamless execution.

We have included in our submission all required documentation demonstrating our technical capability, financial capacity, operational readiness, and compliance with statutory and regulatory requirements. We affirm our commitment to supporting KRA's objectives of enhancing cargo visibility, improving compliance, reducing transit risks, and facilitating trade across the region.

We appreciate the opportunity to participate in this prequalification process and remain available to provide any additional information or clarification that may be required.

Yours faithfully,

Joseph Kiptoo
Executive Director

Union International Ltd

"Uniting Borders, Inspiring Growth"

Company Profile

Executive Summary

Vision

To be a globally trusted partner delivering innovative, sustainable, and high-impact solutions that empower businesses, institutions, and communities to thrive.

Mission

To provide integrated, reliable, and value-driven services through strategic partnerships, operational excellence, and a commitment to quality, integrity, and continuous improvement—while creating measurable impact for our clients and stakeholders.

Core Values

1. Integrity

We uphold the highest ethical standards, ensuring transparency, accountability, and trust in all our engagements.

2. Excellence

We pursue superior performance by consistently delivering high-quality solutions that exceed expectations.

3. Innovation

We embrace forward-thinking approaches and adaptive solutions to meet evolving market and client needs.

4. Customer Centricity

We place our clients at the core of our operations, tailoring solutions that create real and lasting value.

5. Collaboration

We believe in the power of partnerships—internally and externally—to drive shared success.

6. Sustainability

We are committed to responsible business practices that support environmental stewardship and long-term socio-economic development.

7. Agility & Reliability

We respond swiftly to challenges while maintaining consistency and dependability in service delivery.

Company Overview

Shaping the Future of Security and Technology with Innovation

Corporate Overview

Union International is a dynamic, multi-sector solutions provider delivering integrated services across Africa and beyond. The company is positioned as a strategic partner to governments, corporates, and development institutions, offering reliable, scalable, and innovative solutions tailored to diverse operational environments.

With a strong commitment to excellence, Union International combines industry expertise, technology, and partnerships to deliver measurable value and sustainable impact.

Strategic Positioning

Union International Ltd operates at the intersection of:

- Supply chain and logistics
- Energy and petroleum solutions
- ICT and digital transformation
- Government and development sector engagement

Core Business Areas

a) Supply Chain & Logistics

- Procurement and distribution
- Import/export facilitation Last-mile
- delivery solutions Inventory and
- warehouse management

b) Energy & Petroleum Solutions

- Supply of petroleum products
- Retail and commercial fuel solutions
- Fuel logistics and storage

c) ICT & Digital Solutions

- Systems integration Digital
- platforms and automation Data
- management and analytics IT
- infrastructure and support

Organizational Structure

The company operates under a robust governance framework led by:

- Board of Directors
- Managing Director / CEO
- Operations
- Commercial & Business Development
- Finance & Administration
- Technical & Projects

Strategic Partnership

Union International Limited has formed a **strategic partnership** with BSMART Technology to enhance our technological capabilities and deliver innovative solutions across various sectors.

We collaborate with:

- Global manufacturers
- Technology providers
- Logistics partners
- Local distributors

These partnerships enable us to deliver high-quality, cost-effective solutions.

Technology Partnership - BSMART Technology

Union International Limited is the authorized partner of BSMART Technology Limited in Kenya, specializing in Regional Electronic Cargo Tracking System (RECTS) solutions, Electronic Sealing Technology, and comprehensive Managed Services.

About BSMART Technology

BSMART Technology Limited is a leading provider of compliance-driven digital infrastructure solutions with proven expertise across 24 countries and over 350,000 devices monitored worldwide.

Quality, Health, Safety & Environment (QHSE)

Union International is committed to:

- Maintaining safe working environments
- Minimizing environmental impact
- Ensuring compliance with HSE regulations
- Continuous risk assessment and mitigation

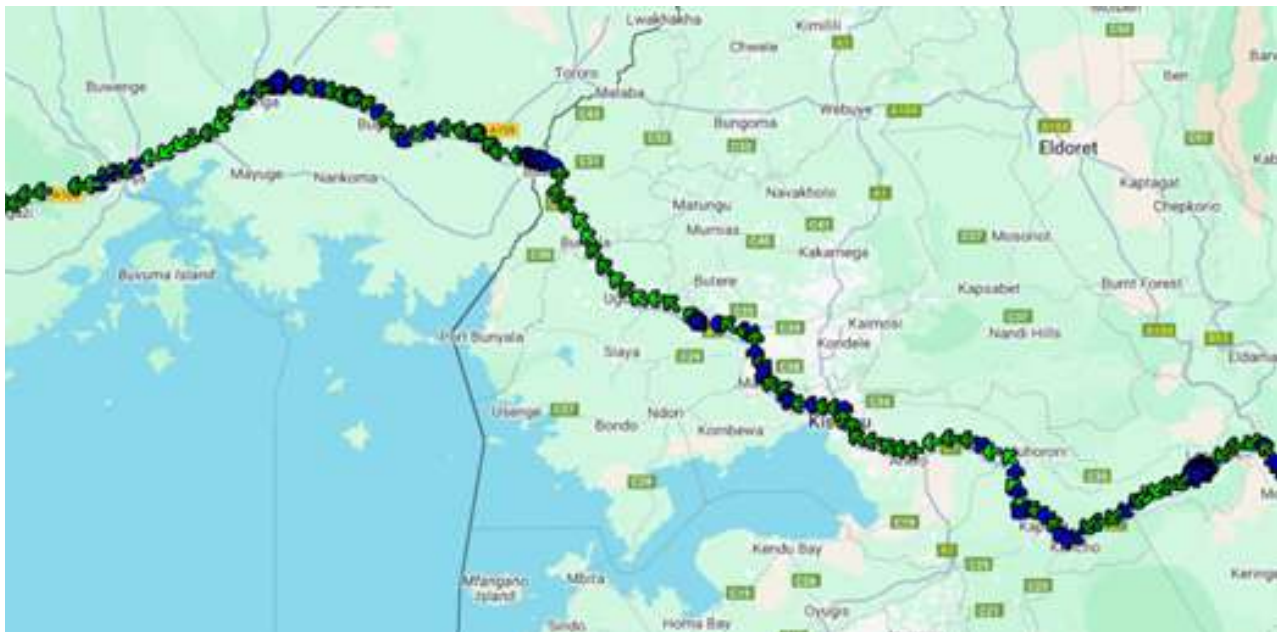

Why Choose Union International

- Proven reliability and execution capability
- End-to-end service delivery
- Competitive pricing with high value
- Strong governance and compliance
- Client-focused approach
- Regional presence with global connections

Geographic Presence

Union International operates across:

- **East Africa** (Kenya, Uganda, Tanzania, Rwanda)
- Strategic partnerships in Africa and international markets

Competitive Advantage

Integrated Service Model

One partner for multiple solutions—reducing complexity and cost.

Strong Partner Network

Established relationships with manufacturers, distributors, and service providers globally.

Local Expertise with Global Standards

Deep understanding of African markets combined with international best practices.

Scalability & Flexibility

Ability to support both small-scale and large, multi-country projects.

Compliance & Governance

Strict adherence to regulatory, legal, and ethical standards.

Core Services

Tailored Solutions for a Secure Future

At Union International Limited, we pride ourselves on delivering **tailored solutions** that address the unique security and operational needs of our clients. Our core services encompass a wide range of specialized technologies designed to enhance security, improve efficiency, and streamline operations.

We offer **Electronic Sealing Solutions** that safeguard cargo integrity, ensuring that goods remain secure throughout their journey. Our **Electronic Fuel Seals** provide a robust defense against fuel theft, further enhancing operational reliability. In addition to these core offerings, our **Managed Services** optimize performance by providing ongoing support and system management tailored to our clients' requirements.

Our commitment to reliability extends to **Repair & Maintenance** services, ensuring that all systems function at peak efficiency. Our **System Integration** services facilitate seamless implementation of various technologies, while our **IT Infrastructure & Cloud Solutions** provide scalable and secure options for modern businesses. Union International Limited is dedicated to supporting secure and efficient operations across industries, demonstrating our unwavering commitment to innovation and excellence in every service we provide.

Managed Services

Ensuring optimal performance for your business operations

At Union International Limited, our **Managed Services** are designed to optimize performance and enhance operational efficiencies for our clients. We understand the complexities of modern business environments and the necessity for robust solutions that ensure **continuous improvement**. Our managed services encompass a wide range of offerings, including system monitoring, data management, and performance analytics, all tailored to meet the specific needs of our clients. With a team of experienced professionals, we focus on delivering proactive support that minimizes downtime and maximizes productivity.

Our approach integrates advanced technology with strategic insights, allowing us to mitigate risks and streamline processes effectively. By leveraging our expertise in IT infrastructure and cloud solutions, we provide scalable service models that adapt to the evolving demands of your organization. In addition, our commitment to quality assurance and compliance ensures that all managed services meet stringent industry standards. Through these initiatives, Union International Limited not only enhances operational performance but also empowers businesses to focus on their core competencies, driving growth and success in an increasingly competitive landscape.

Technology Stack

Comprehensive Infrastructure and Cloud Solutions for Businesses

Modern, Scalable & Production-ready Technologies

Frontend Technologies

PHP	Web Interface
Laravel	UI Framework
Flutter	Mobile Apps
Tailwind CSS	UI Styling

Backend Technologies

J2EE	Enterprise integration
ActiveMQ	Data Processing Hub
WebSocket	Real-time Updates
REST API	API Gateway

Data Management

PostgreSQL	Primary Database
Logical Replication	Disaster Recovery
Redis	Caching Layer

Infrastructure & DevOps

AWS/Azure	Cloud Hosting
Git	SCM Management
CI/CD Pipeline	Deployment
Zabbix	Monitoring

IoT & Hardware

GPS Modules	Location Tracking
RFID/NFC	Asset Tagging
MDVR	Video Surveillance
Fuel Sensors	Level Monitoring

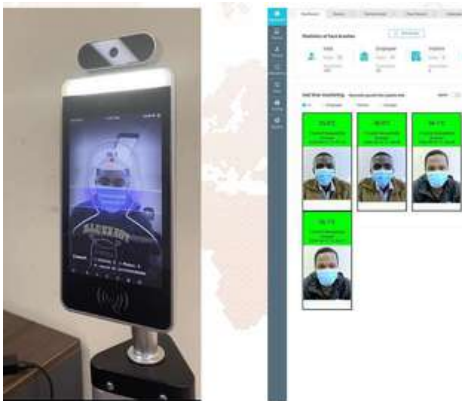

Security & Compliance

OAuth 2.0	Authentication
JWT	Token Management
2FA	Multi-factor Auth

At Union International Limited, we pride ourselves on delivering **comprehensive IT Infrastructure and Cloud Solutions** tailored to meet the unique needs of businesses in today's fast-paced digital landscape. Our expert team specializes in designing and implementing robust IT frameworks that support seamless operations, enhance productivity, and ensure reliable access to critical data. We understand that **infrastructure is the backbone** of every successful organization; hence, we utilize cutting-edge technologies to create scalable solutions that grow with your business.

Our cloud services offer flexibility and efficiency, allowing clients to leverage the power of cloud computing to reduce costs and improve agility. We provide end-to-end support, from initial consultation and system design to deployment and ongoing management, ensuring a smooth and successful transition to cloud-based operations. Moreover, our commitment to security and compliance guarantees that your data remains protected in the ever-evolving cyber landscape. By partnering with Union International Limited, clients benefit from our wealth of experience and innovative approach, positioning them for success in a competitive marketplace.

Regional Operations Expansion

Union International Limited is committed to expanding its regional operations across East Africa, enhancing connectivity and security within the logistics sector. By implementing advanced technology and strategic partnerships, such as with BSMART Technology, the company aims to streamline operations and improve efficiency. The East African Community (EAC) cargo tracking network provides a robust framework, ensuring real-time tracking and monitoring of cargo movements. This initiative not only enhances security but also minimizes delays, thereby optimizing supply chain processes. Union International Limited's focus on tailored solutions helps businesses adapt to the evolving market landscape while maintaining high standards of reliability and compliance. The team's expertise and innovative approach ensure a competitive edge in the region, fostering growth and sustainability in the logistics and technology sectors.
